AGENT 203

BY DAMJAN MITREVSKI

When Zoe Stranek discovers that her missing father was a secret intergalactic agent, she follows in his footsteps with the help of Ulav, her father's former alien partner. Her latest assignment: she has just received an emergency message from her missing father warning of a danger to Earth, but he doesn't have time to say what it is. During this mission, Zoe and Ulav must take on many of the galaxy's strange, unique, funny and (often) criminal inhabitants to find her father, discover the impending danger and ultimately save Earth.
