

FORESTA

BY ADRIÀ EXPÒSIT-GOY

Moisés, a woodcutter of Peruvian origin, has been working in the forests of Spain for over ten years. However, unable to find his place in this new world that has lost its connection to nature and resists interculturality, he sometimes wishes he could disappear and return to his roots, in the Peruvian jungle. A telluric journey that wants to return our body to the kingdom of plants, to the seed where human life was engendered, to which we return to reincarnate, before it is too late.
