

NOAH

BY LOUISE BRIX ANDERSEN

At 23 years old, Noah is fighting seven rare diseases in a day-to-day life marked by chronic pain, failing organs and a body full of scars that draw the map of countless risky surgeries in which, on several occasions, she has said goodbye to her loved ones before entering the operating room.

Throughout this journey, we will discover how for Noah, giving up is not an option, becoming hopelessly strong behind a huge smile. Noah, resurfaces. Repeatedly, tirelessly, to finally live a normal life and bring her motto "NOTHING IS IMPOSSIBLE" alive.
