WIND FRITTERS

BUNYOLS DE VENT

BY CLÀUDIA MATEU

Grandma Montserrat's granddaughter narrates in the form of a question the life she never got to know about her grandmother, a life she has slowly been uncovering. The image and the voice appear together, complementing each other as they recount moments and images that, if not recovered, no one would ever have managed to preserve. The documentary includes recreations of elements that were once the protagonists of the family story. This documentary short film is the process of a granddaughter trying to understand the past life, the memories, the lies within them, and the life that existed without her.
