

FROM DANCE TO GOD

DE LA DANSA A DÉU

BY RAMON TORT

A journey in search of individual and collective identity through dance, music, thought and spirituality. A point of intersection in constant movement and in which binomials such as body/mind, ecstasy/reason or faith/science star in an intense and dynamic choreography full of powerful stories and revealing ideas. Combining personal testimonies, historical facts, fiction and an electrifying audiovisual collage, the multiple dimensions of the act of dancing are explored: fun, catharsis, seduction, ritual, personal growth and, ultimately, one of the primordial forms of human expression, amongst ourselves and with our environment.
