BLUE-SMURF ICE CREAM

BLAU GELAT PITUFO

BY ÀLEX LORA

After many years of separation, Lili and her parents take a trip to Finland to reunite with her brother Óliver. What was supposed to be an opportunity to rebuild family ties takes a turn for Lili when Óliver, immersed in his idyllic and eco-sustainable life, does not offer the support she expected. Unable to confront him, Lili returns to Barcelona and continues to handle her parents old age alone, as well as the unease that it causes her. It is not until after their parents death that the siblings meet again. And it is at the moment when they are most free to make decisions about their respective lives and to definitively break the bond that unites them, that they feel most lost and alone.
